We are still working on our **guide book on Zambia**. As a result we continue to increase the coverage and accuracy of our Zambia data. You will remember that there was already a big increase in coverage for the previous release. For this release we have increased the points of interest by **6%** and roads by **1%** for this map. Below some highlights on what has been done in Zambia for this release:

- Lusaka street names updated
- Lusaka malls updated
- Fuel stops added and updated across Zambia
- Lusaka bypass roads added and routing points inserted to assist with routing around the city.
- Zambia toll roads updated

East Africa has again seen significant growth as we continue to update our maps in this region. Roads increased by **17%** as we updated the primary, secondary and tertiary road network of **Kenya**.

One of our data members did a comparison of mountain passes in **South Africa** and found almost **400 mountain passes** for which we did not have their specific names. These have now been properly attributed.
