

## User Guide: T4A GPS Maps Subscription Download Links (For Apple MAC)

Download Links are digital files that you have purchased and are emailed to you, or that you may have downloaded from your user account on our site etc. and then:

- You would want to install them on your PC
- Then transfer them to your GPS unit

**\*Note:** These Download links are purchased as Subscriptions from our site, and can be purchased for the entire African continent, or per region like Namibia, Botswana, South Africa Northern & Western Cape etc.

Document Date: 01-June-2020

## Before you get started, please read here

Important points, **all discussed in this document**.

### **Note that the T4A GPS Maps Subscription Download Links:**

- Are compatible with **Garmin GPS** Units only
- Will require you to **install them on your MAC** and then **transfer the maps to your GPS unit**.
- **Are available on our online store only. Your purchase is registered on our system and:**
  - **Complete & Single Download Map Sets:** once purchased, you will be entitled to all the map updates we release within the next 12 months or 5 years, depending on the subscription you purchased. This could be up to four updates a year, as we aim to release updates every quarter, but it may also depend on the number of changes we make to our map content. We will however make sure we release at least two map updates per year.
    - Any future purchase of the complete set 1 year subscription / GPS Maps on SD Card will then be at a 50% discount regardless of when you come back to buy.
- Take note of a few [important settings on your GPS](#) in order to make the most of your T4A GPS Maps.

## QUICK GUIDE SECTION - Start here

### 1. How to Access and Install T4A GPS Maps to your MAC

The GPS Maps you purchased as a downloadable link from Tracks4Africa, is a data file. The data is compressed into a zipped file. In summary you will:

- Need to then open and install that GPS Map file onto your MAC.
- Then transfer the GPS Map to your Garmin unit.

**Follow the Summary Steps and information under "Summary", from Step A to Step B etc. if you are familiar with our processes.**

Step	Summary	See Detailed Steps Here
Step A	Find and download the downloadable zip file (containing the T4A GPS Map you purchased) to your PC: File is available: <ul style="list-style-type: none"> <li>• <a href="#">On our online shop</a> <ul style="list-style-type: none"> <li>◦ On the Shop Checkout screen, on the final Order screen</li> <li>◦ OR under "My Account" &gt; Subscriptions</li> </ul> </li> <li>• OR on your final order email in your inbox</li> </ul>	See <a href="#">Appendix Item 1A</a> for more detailed steps
Step B	Open the zip file, and run the .mapl file and install the T4A GPS Maps onto your MAC with MapManager.	See <a href="#">Appendix Item 1B</a> for more detailed steps
Step C	In order to view the maps on your MAC - Install Free Software: MapInstall & MapManager / BaseCamp:	See <a href="#">Appendix Item 1C</a> for more info on this software

**If you require more information and help per step and summary, go to each Appendix Item here per Step for more details and screenshots.**

Also note, that if you do reference the Appendix, please be sure to follow the links to "[Go Back to Quick Guide section](#)" - don't just continue into the next Appendix section - it may confuse you.

#### Example - Using the Micro SD Card in a Garmin Unit:

Extract the micro SD card from the adapter, and only insert the micro SD card into the Garmin GPS Unit.

[Go Back to Quick Guide section](#)

# Okay, let's get started!

# QUICK GUIDE SECTION - Start here

## 1. How to Access and Install T4A GPS Maps to your MAC

The GPS Maps you purchased as a downloadable link from Tracks4Africa, is a data file. The data is compressed into a zipped file. In summary you will:

- Need to then open and install that GPS Map file onto your MAC.
- Then transfer the GPS Map to your Garmin unit.

Step	Summary	See Detailed Steps Here	
Step A	<p><b>Find and download the downloadable zip file (containing the T4A GPS Map you purchased) to your PC:</b></p> <p>Summary Steps: File is available:</p> <ul style="list-style-type: none"> <li>• <a href="#">On our online shop:</a> <ul style="list-style-type: none"> <li>○ On the Shop Checkout screen, on the final Order screen</li> <li>○ OR under <a href="#">"My Account" &gt; Subscriptions</a></li> </ul> </li> <li>• OR on your final order email in your inbox</li> </ul>	See <a href="#">Appendix Item 1A</a> for more detailed steps	
Step B	In Downloads older - Open the zip file, and run the .gmapi file and <b>install the T4A GPS Maps onto your MAC with MapManager.</b>	See <a href="#">Appendix Item 1B</a> for more detailed steps	
Step C	In order to view the maps on your MAC - Install Free Software: <b>MapInstall &amp; MapManager / BaseCamp:</b>	See <a href="#">Appendix Item 1C</a> for important info on this software	
	<p><b>BaseCamp:</b></p> <p>View the T4A GPS maps, plan trips etc. and transfer &amp; receive maps, waypoints etc. to and from a GPS unit. (ie. the MapInstall function resides within BaseCamp too)</p> <p><a href="#">Click here to download Garmin BaseCamp for free</a></p> <p><b>and then install it on your MAC</b></p>		<p><a href="#">Install BaseCamp on Mac</a></p> 

	<p><b>MapInstall &amp; MapManager:</b></p> <p>Note that “MapInstall” is a feature incorporated in <u>BaseCamp</u>. One can also download and install MapInstall separately, which <b>purely transfers the GPS maps to your GPS</b> Garmin Unit. You cannot view the GPS maps or do trip planning etc. in MapInstall.</p> <p><a href="#">Click here to download MapInstall for free</a></p> <p><b>and then install it on your MAC</b></p>		<p><a href="#">Install MapInstall on Mac</a></p> 
<p><b>Step D</b></p>	<p><b>Open and View the installed T4A GPS Maps on your MAC, using:</b></p>		
	<p><b>*Note:</b> You cannot access and view the maps via <b>MapInstall</b> - that is purely used to transfer the maps from your MAC to your GPS Unit.</p>		
	<p><b>BaseCamp:</b></p> <p><b>Summary Steps:</b></p> <ul style="list-style-type: none"> <li>• In Menu: Goto ‘<b>Maps</b>’</li> <li>• Then select the installed map that you want to view</li> </ul>	<p>See <a href="#">Appendix Item 1D</a> for more detailed steps</p>	
<p><b>Steps A to D above are available on our Youtube channel. We suggest you go through the steps above first as <u>there is some software you will need to install first</u> that is mentioned in this video.</b></p>		<p><a href="#">Install T4A GPS Maps on Mac (From Digital Download)</a></p> 	

## 2. How to transfer T4A GPS Maps from your MAC to your GPS

- Since you've purchased T4A GPS Maps via Downloadable files, and installed them onto your MAC, you now need to transfer them to your GPS unit in order to use them on your GPS.

Step	Summary	See Detailed Steps Here	
Step A	Connect your Garmin GPS Unit to your MAC via USB cable.	See <a href="#">Appendix Item 2A</a> for more detailed steps	
	Uninstall any previous T4A GPS Maps from your GPS unit.	See <a href="#">Appendix Item 2AA</a> for more detailed steps	
Step B	Open MapInstall / BaseCamp that you installed, and transfer the maps to your GPS.		
	<p><b>Via MapInstall: (recommended option)</b></p> <p><b>Summary Steps:</b></p> <ul style="list-style-type: none"> <li>• Select <b>Device</b> (ie. Choose device to install maps on (ie. internal GPS memory or SD Card)) <ul style="list-style-type: none"> <li>• Click '<b>Customize</b>'</li> </ul> </li> <li>• Select map to transfer to GPS unit by clicking on tick box to the right of map names <ul style="list-style-type: none"> <li>• Click '<b>Send Map</b>'</li> <li>• Click '<b>Confirm</b>'</li> <li>• Click '<b>Done</b>'</li> </ul> </li> </ul>	See <a href="#">Appendix Item 2B</a> for more detailed steps	<p><a href="#">Transfer T4A Maps to GPS using Mac</a></p> 
	<p><b>OR via BaseCamp:</b></p> <p><b>Summary Steps:</b></p> <ul style="list-style-type: none"> <li>• In Menu: Goto '<b>Transfer</b>'</li> <li>• Click '<b>Send my Collection</b>' <ul style="list-style-type: none"> <li>• <b>Select Device</b></li> </ul> </li> <li>• Click '<b>Send Maps with MapInstall</b>' (ie. this will initialize MapInstall - <a href="#">follow steps in section above here for installing with MapInstall</a>)</li> </ul>	See <a href="#">Appendix Item 2C</a> for more detailed steps	See Video above on how to use the <b>MapInstall</b> function with <b>Basecamp</b> to transfer the maps.

### 3. How to use T4A GPS Maps on your Garmin GPS

- At this point you should have successfully installed the T4A GPS Maps to your GPS unit.

Step	Summary	See Detailed Steps Here	 YouTube
Step A	Go to map settings and select only the T4A maps. Do not select more than one type of map at a time.	See <a href="#">Appendix Item 3A</a> for more detailed steps	
Step B	<b>Check these extra settings on your GPS:</b> <ul style="list-style-type: none"> <li>Set preference to Fastest Time / Fastest Route</li> <li>Switch off Avoidances</li> <li>Set Map detail to more</li> <li>Ensure only the T4A Map is selected on your GPS</li> </ul>	See <a href="#">Appendix Item 3B</a> for more detailed steps	<a href="#">Setting up your GPS</a>   YouTube

### 4. DON'T FORGET

Read about our <b>Subscriptions Policy for Downloadable GPS Maps</b>	See <a href="#">Appendix Item 4A</a> for more info
Check out the <b>T4A Africa Guide</b> on your T4A GPS Maps SD Card	See <a href="#">Appendix Item 4B</a> for more info

## 5. HELP with MapInstall/BaseCamp/MapSource

For more information on how to use BaseCamp, please refer to **Garmin's help tutorials** which can be found on their website. At time of this publication this information was available from the internet location below:

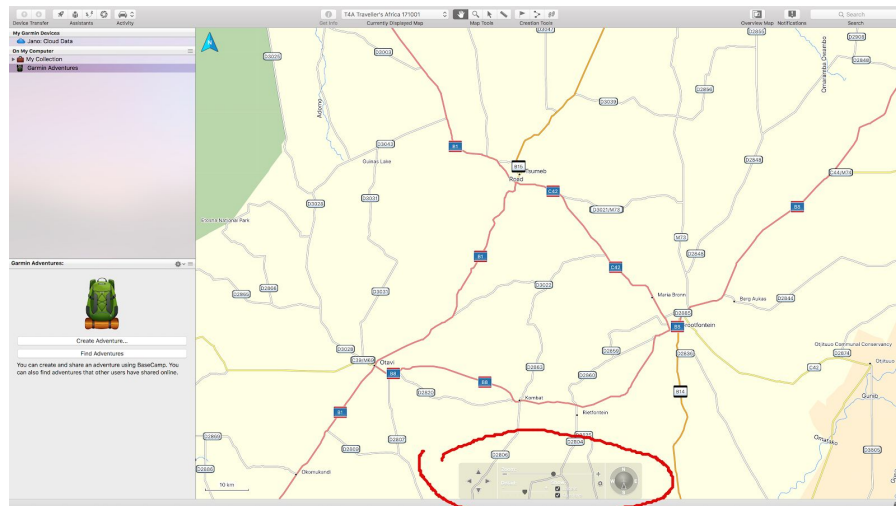

<https://support.garmin.com/en-US/?productID=52801&tab=topics>

### Some important settings on BASECAMP

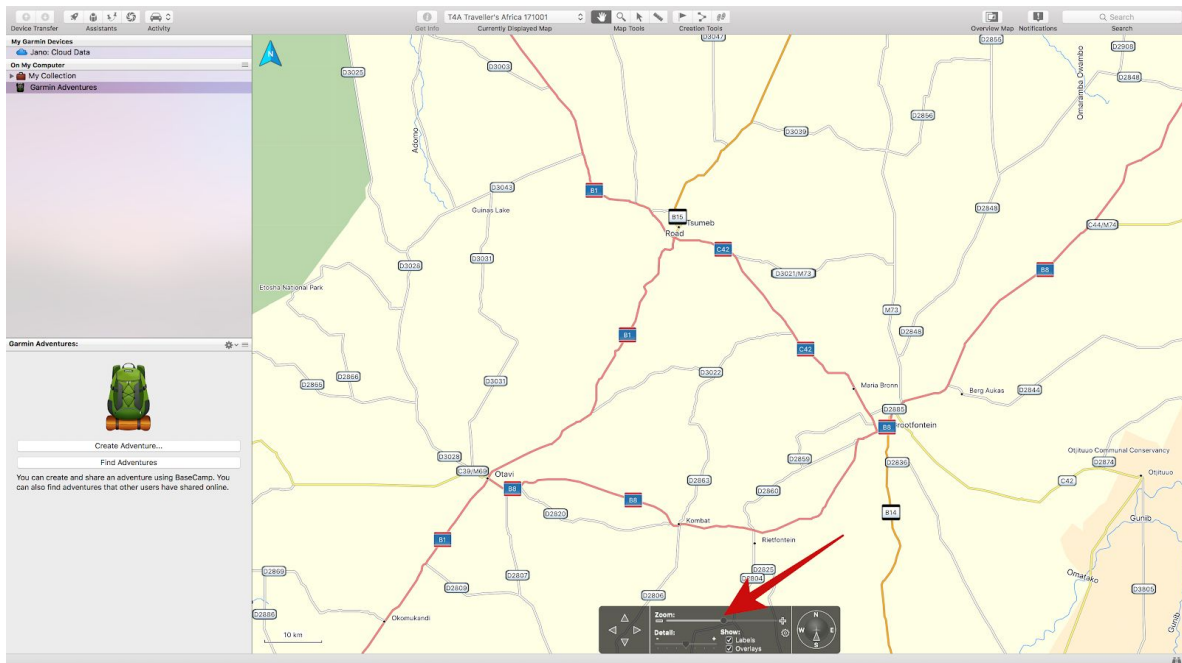

Make sure your settings on Basecamp is the same as the [settings on your GPS](#) else you will get different results if transferring routes from Basecamp to your GPS unit.

In order to view and see POIs (ie. Lodges, campsites, restaurants etc.) on your screen - **make sure that your Map Detail is set to Highest.**

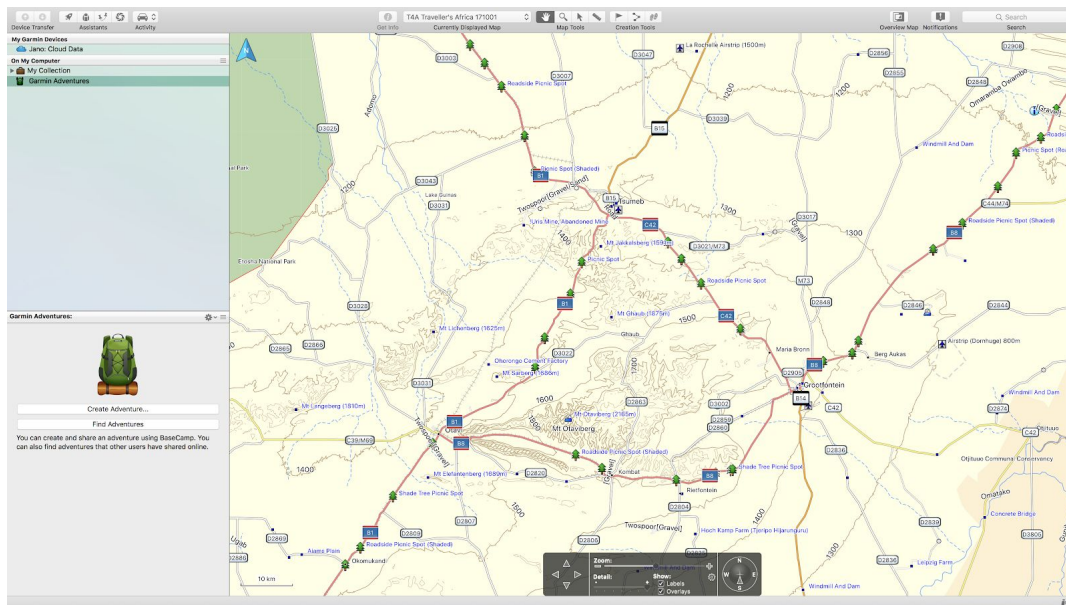

1. **Open Basecamp.** The view you see when BaseCamp is open. Note the light box at the bottom of the screen.

2. When you move your mouse over the light box at the bottom of the screen, it becomes visible and you can interact with the slider.

3. As you drag the slider to show higher detail, you will notice that the map becomes more detailed.

## 6. T4A Videos to help you

Find Videos: On our [Youtube Channel](#).

For Trip Planning in Basecamp - [see this playlist](#):

- [BaseCamp Basics: Getting Started](#)
  - [BaseCamp Basics: Panning & Zooming](#)
  - [BaseCamp Basics: Waypoints & Routes](#)
  - [BaseCamp Basics: Organising Data](#)

# APPENDIX - DETAILED STEPS

## 1. How to Access and Install T4A GPS Maps to your MAC

### 1A) Find and access the GPS Maps Download link file purchased

You need to download the links, which contain the T4A GPS Maps, that were sent to you from T4A - they need to be installed on your MAC.

Your download links are available:

- On the **final order checkout screen** on our [online shop](#) when you placed your order:
  - Click on the Map Download link that you want to install and be sure to choose **the correct one for Windows or MAC OS**.

Thank you. Your order has been received.

- OR from a **download link email** from T4A:
  - You can click on the “Click here” link to access your downloads page on our server.

**TRACKS4AFRICA**

## Download Link/s

**Your Tracks4Africa Download is Ready!**

You are receiving this email because you qualify for the relevant link/s being sent to you as per below. Please read the instruction in the email to access your direct download link/s.

Please make sure you log into our system with your Tracks4Africa user email and password, and that you are using a good internet browser like Google Chrome, Firefox or Internet Explorer. (Note: Microsoft Edge webbrowser does not always download the links properly. If you use Firefox/Internet Explorer, and the download fails, then please try Google Chrome etc. and vice versa).

[Click here](#) and login to access your direct downloads page.

If you lost your password, please [reset your password](#) using the email address this message is addressed to, then [return here](#) to access your direct downloads page.

- If you are not logged in, you will be prompted to log in.
- You will then see the “Direct Downloads” page - you then click on the file you want to download.

# Direct Downloads

Home > Direct Downloads

## Download Instructions

Please click on the map download link below to access the files that are available to you.

Note: Please ignore the 0.00KB file size. We will update the correct sizes in due course.

**Welcome, Janine Reyneke**

20 Downloads are shared with you

**Traveller's Africa IMG file 19.03**

268.32 MB 1 file(s)

**Traveller's Africa Garmin Maps 19.03**

524.21 MB 2 file(s)

- Make sure you then either download a Windows or MAC file, depending on your type of PC:

Download	
File	Action
africa-full-set-windows-19-03.zip	<a href="#">DOWNLOAD</a>
africa-full-set-mac-os-19-03.zip	<a href="#">DOWNLOAD</a>
<a href="#">Download</a>	

The download will either start in your download folder or at the bottom of your browser screen, depending on which internet browser you use.

You will notice a zip file being downloaded to your MAC:  
(eg. **madagascar-mauritius-reunion-mac-os-17-10.zip**)

[Go back to Quick Guide Section](#)

## 1B) Installing the GPS maps in the Download Link to your MAC

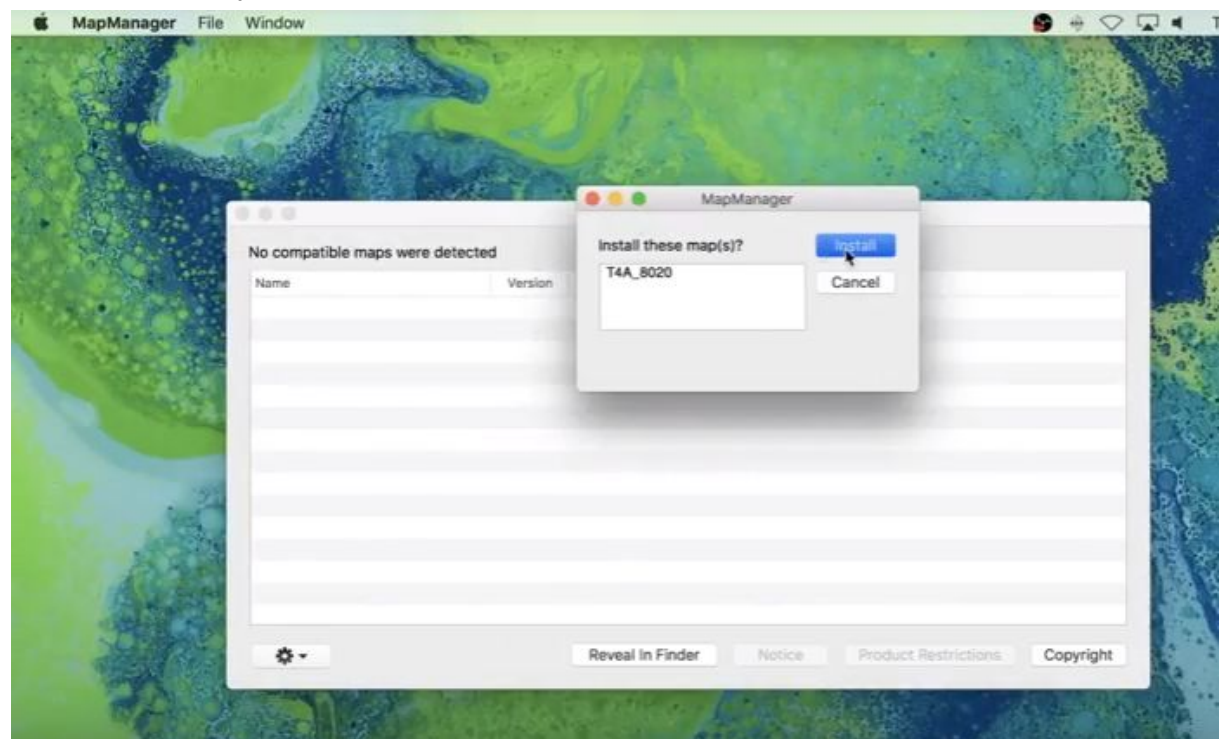

In the downloads folder - Double click on the downloaded zip file as per step 1A.

The T4A Map will be extracted (ie. a .gmapi file) - you can find it in you Downloads folder: *(For purposes of this example, the .gmapi file is called "t4a\_8020.gmapi")*

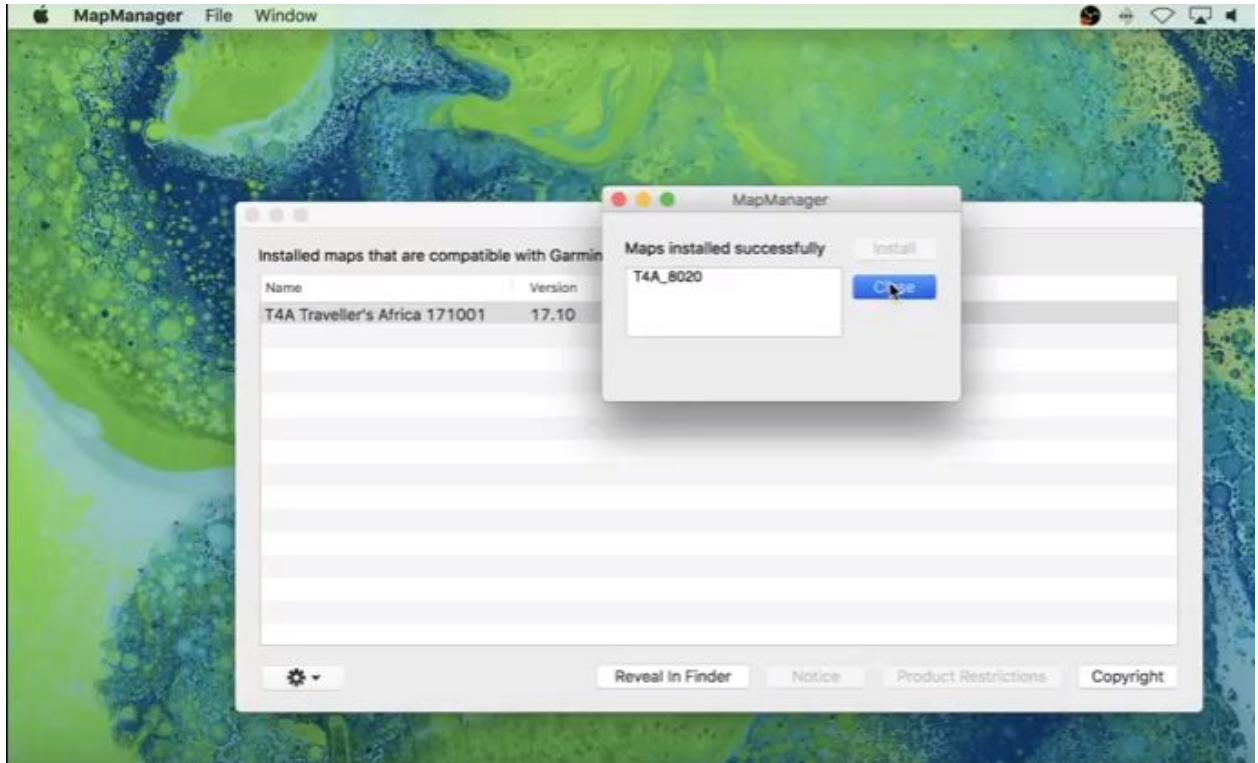

Open the .gmapi file by clicking on it.

MapManager will open - click on "Install" in the MapManager pop-up box, to install the map to your MAC.

Once the installation is done, click on "Close" and then close MapManager.

At this point **you have now successfully installed the T4A GPS Maps** onto your MAC.

[Go back to Quick Guide Section](#)

---

## 1C) More Info on Free Software: MapInstall / BaseCamp

**\*Note:** Info and download links for this software is supplied in the Quick Guide Section 1, Step 1C, but read this section first.

Garmin offers two separate FREE map viewing software options:

- **BaseCamp:** One can view the T4A GPS maps on these platforms, plan trips etc. and transfer & receive maps, waypoints etc. to and from a GPS unit.
  - **Note:** MapSource is not available for MAC, only Windows.
- **MapInstall & MapManager.** Which can only transfer maps to your GPS unit. Note that MapInstall is a feature incorporated into BaseCamp too.
  - *MapManager: copies maps and unlock codes into the right place to be accessible by MapInstall*

The download links are provided in [Section 1](#) was correct at time of publication. If you are unsure where to find these downloads, do a Google search for “Garmin BaseCamp” or “MapInstall”.

For more information on how to use BaseCamp, please refer to **Garmin's help tutorials** which can be found on their website. At time of this publication this information was available from the internet location below:

<https://support.garmin.com/en-US/?productID=52801&tab=topics>

[Go back to Quick Guide section](#)

## 1D) Detailed Steps: Viewing the maps via BaseCamp

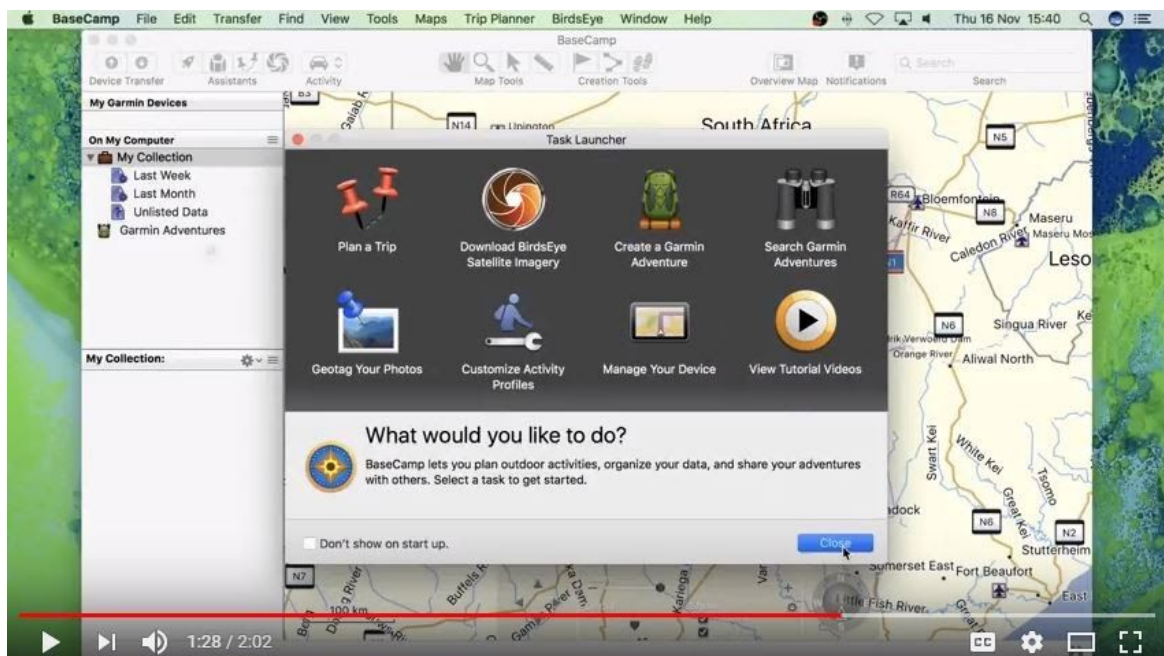

You can view the T4A GPS Maps via the free Garmin Software, BaseCamp, that you installed in the steps further up in this document.

**To view the maps via BaseCamp:**

**Open the BaseCamp** application you have installed on your MAC. It may appear as an icon on your desktop, or find it by clicking on Go on your toolbar and selecting Applications - Garmin BaseCamp.

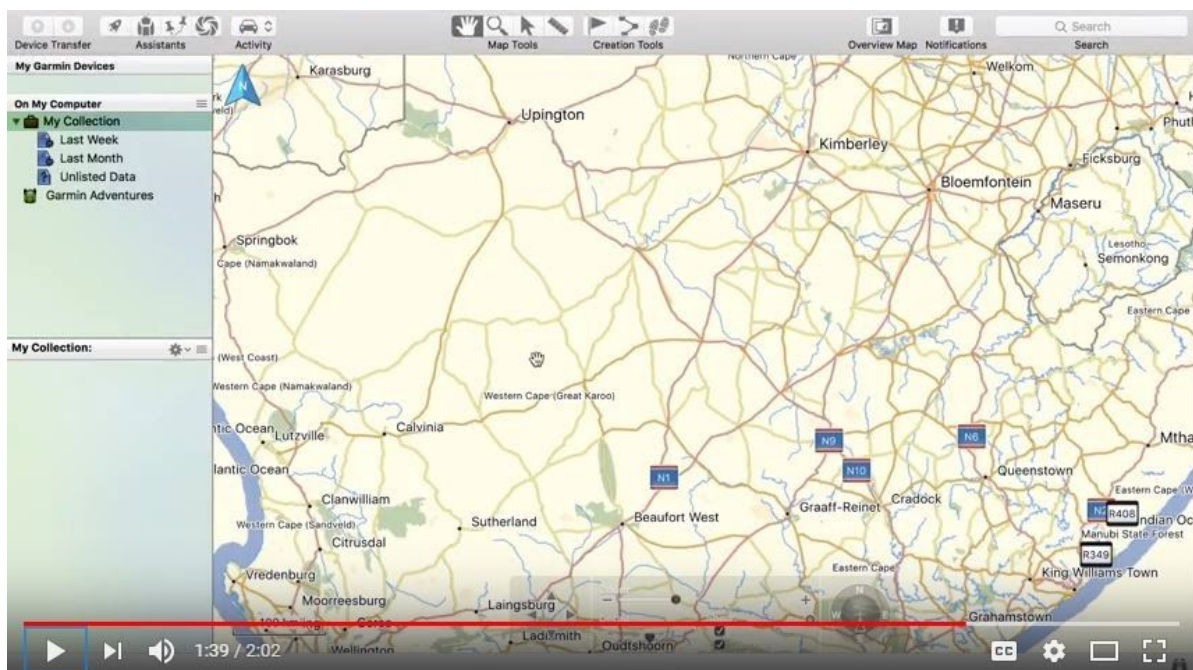

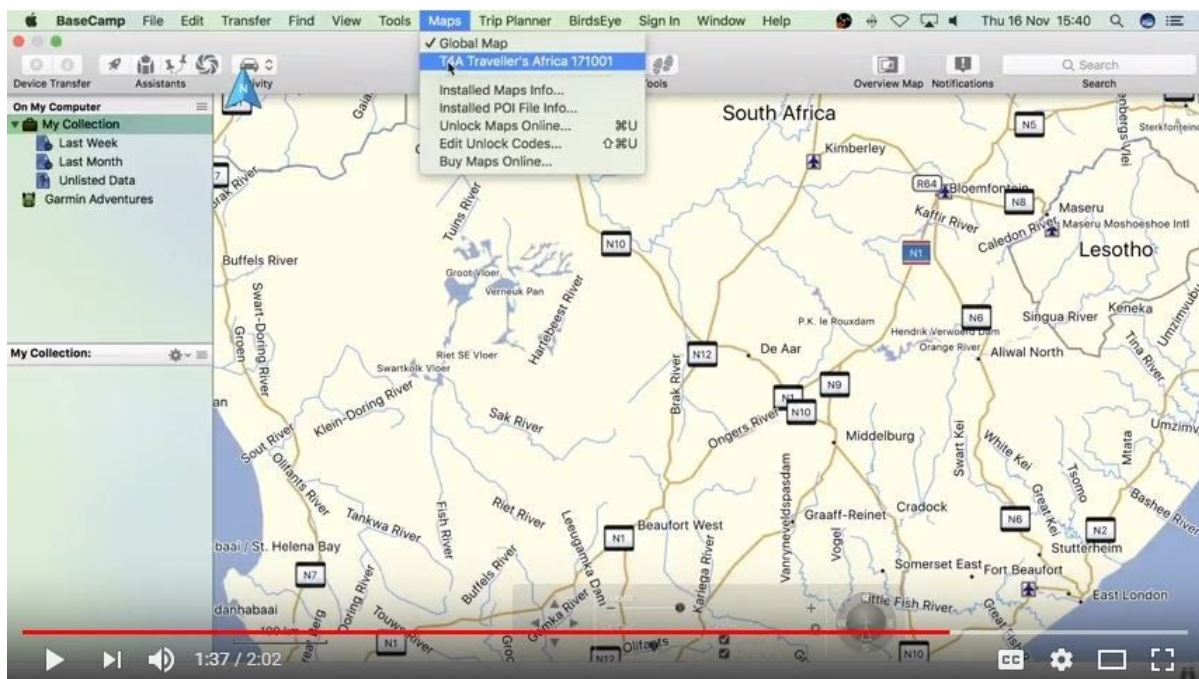

BaseCamp will open up.

You need to change your map - by clicking on “**Maps**” and then choosing your installed T4A Map.

[Go back to Quick Guide section](#)

## 2. How to transfer T4A GPS Maps from your MAC to your GPS

### 2A). Connect your Garmin GPS Unit to your MAC

Connect your Garmin GPS unit to your MAC/Laptop via USB cable.

Remember that you can transfer the T4A GPS Maps to your internal memory or SD Card in our GPS unit. If you're Garmap maps are on your SD card, transfer your T4A maps to the internal memory of your device, alternatively if your Garmap maps are on your internal memory, then transfer your T4A maps to the SD Card.

### 2AA). Uninstall any previous T4A Maps from your GPS

1. **From your MAC:** Please access any old T4A map versions on your MAC that you are now replacing and uninstall them from your MAC! MapManager is the program that is used to install or uninstall the T4A Maps on your Mac.
2. **From your GPS:** If the new T4A GPS map that you wish to install, is on your GPS unit, but in an older version, rather uninstall it from your GPS unit. Steps are here below.

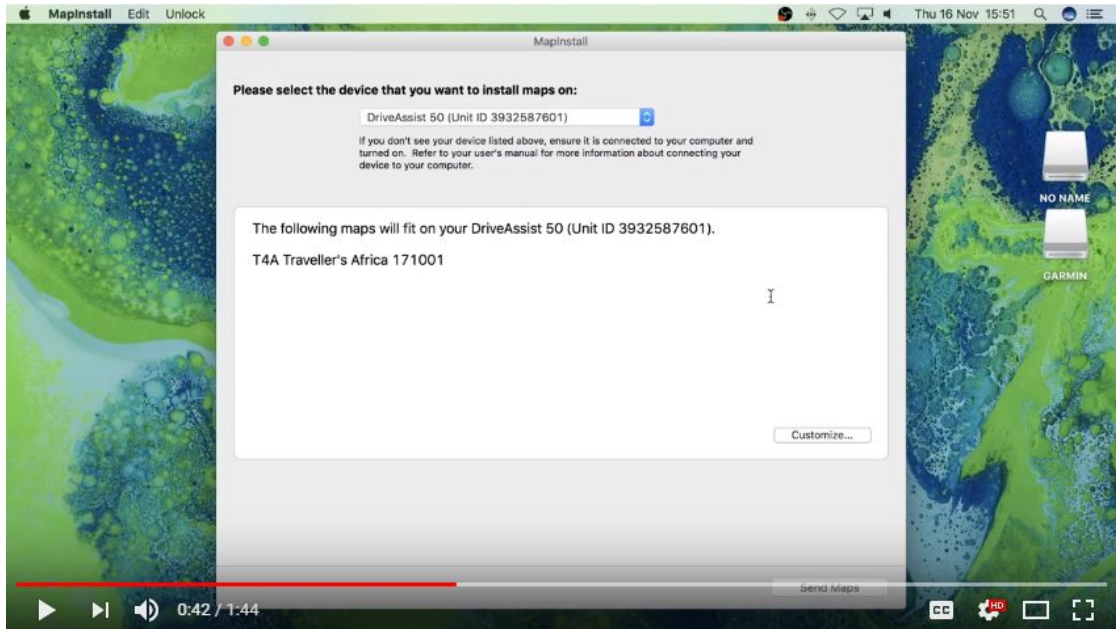

**Please take care NOT TO uninstall your Garmap/City Navigation maps!**

**Since your GPS unit is now connected to your PC -**

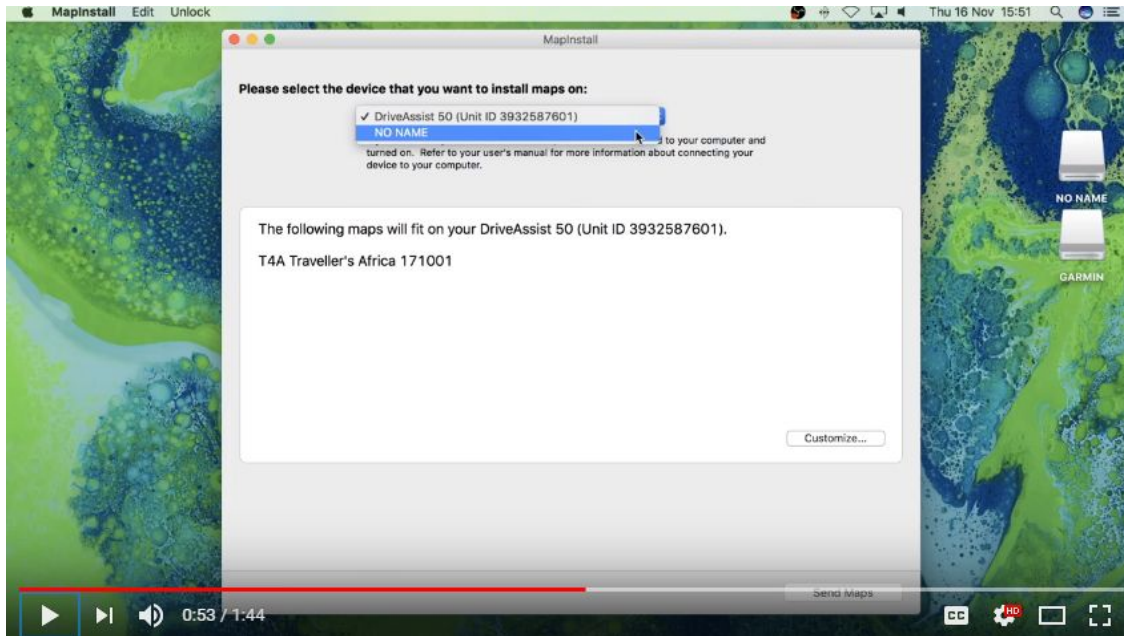

**Find MapInstall on your MAC and open it.** It may appear as an icon on your desktop, or find it by clicking on Go on your toolbar and selecting Applications - Garmin MapInstall.

MapInstall will open.

In order to select the device you wish to un-install your maps from, open the drop-down list as per below - your **GPS Unit** will be referenced, and **"NO NAME"** which refers to the SD Card in your GPS Unit if there is one inserted. (ie. sometimes the SD card is referenced by **" + SD Card"** after the device name eg. **Nuvi 3790 (unit ID 3820880631)+ SD Card**)

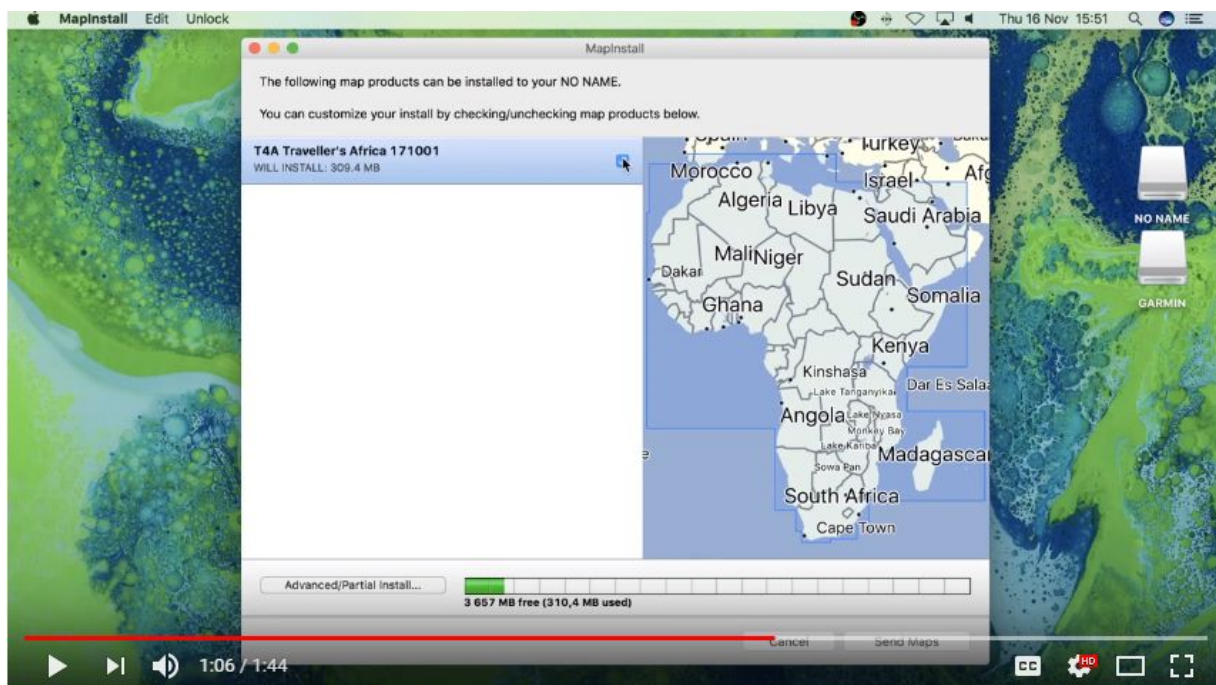

Choose the **device** or “**NO NAME**”, depending on where you want to un-install the maps from (ie. the internal memory of your Garmin unit or the SD Card).

Click on “**Customize**” in the bottom right hand corner.

Then **De-select the T4A GPS Map** that you want to un-install, **by de-selecting it on the blue box to the right of the map name**.

Then click on “**Send Maps**” in the bottom right hand corner.

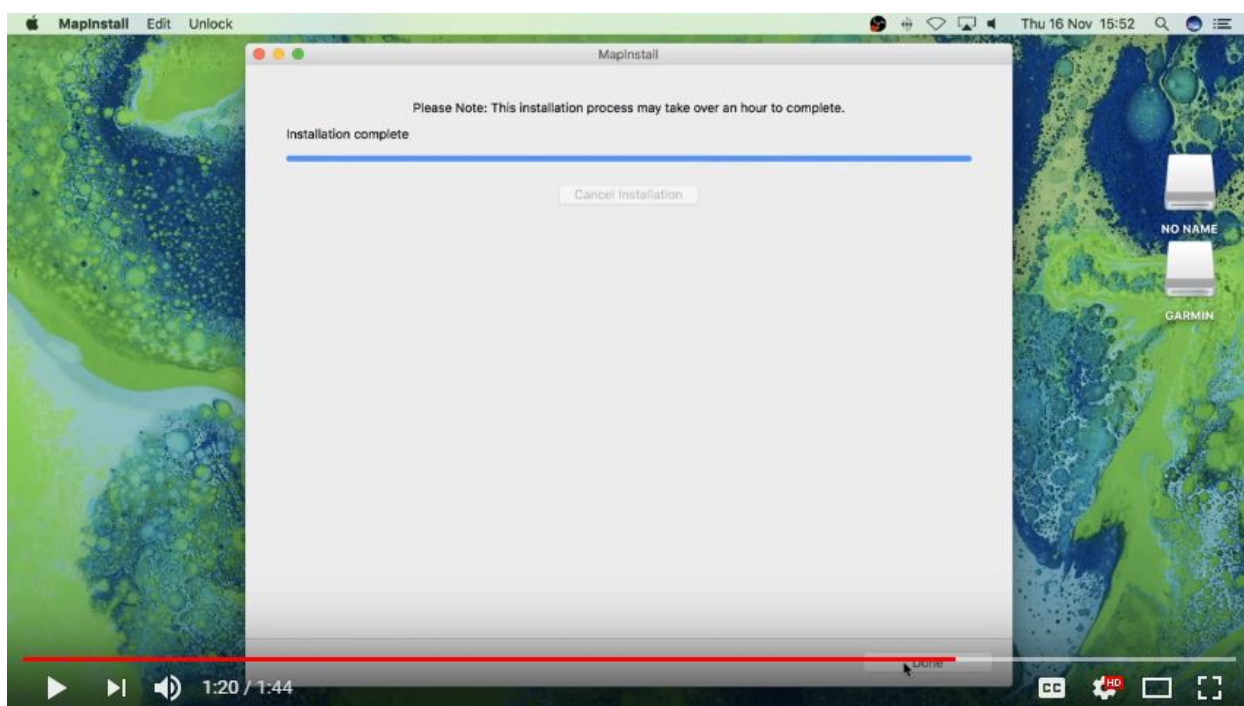

Then click on “**Confirm**” to start the map transfer process.

The Map installation/un-installation process will start, which should only take a few seconds.

When the installation/map transfer process is complete, the following screen will appear.  
Click on **Done**.

MapInstall will then close.

**You are done - The maps will now no longer be listed under your Map Information on the GPS.**

## 2B). Detailed Steps: Using MapInstall to transfer T4A Maps to your GPS

**When transferring map/s to your GPS unit, MapInstall should be open and your GPS system switched on and plugged in.**

**Each time a mapset is sent to a Garmin GPS, the previously loaded maps could be erased from the GPS, especially your Garmap Street maps. If your Garmap maps are on your SD card, transfer your T4A maps to the internal memory of your device and vice versa.**

**Note: Previous T4A Maps, that you are now replacing, must be UNinstalled from your internal memory or SD Card on your GPS unit and from your MAC, otherwise the new T4A file will not be transferred. ([See steps here](#))**

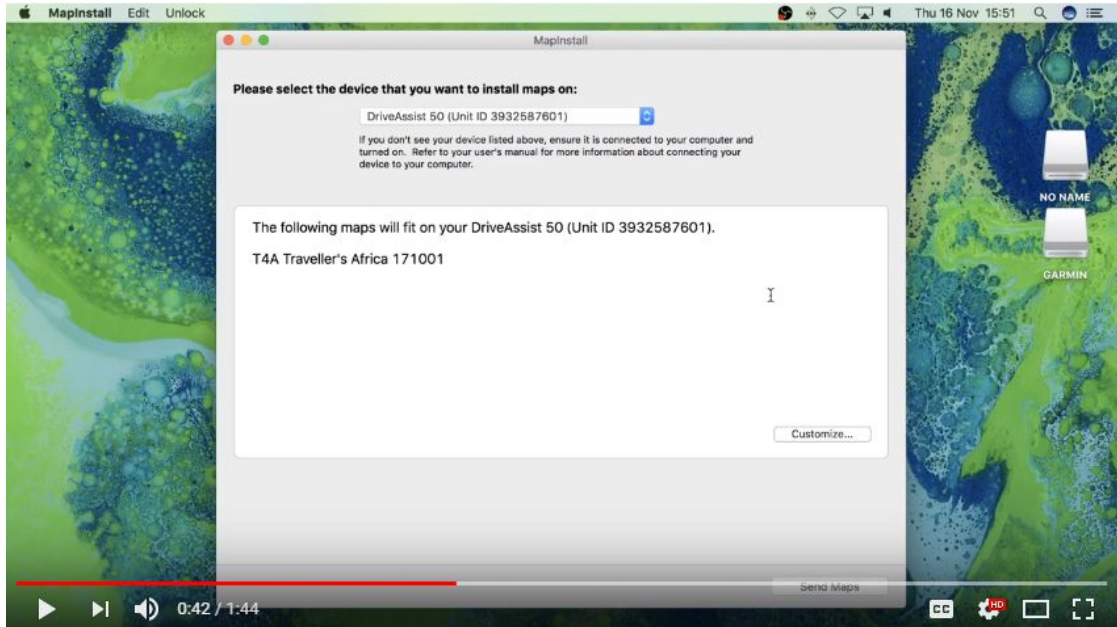

**Also Note:** If your GPS unit (eg. the Garmin NuviCam LMTHD range) has **2 memory card slots** (ie. one for the camera and one for maps):

- Be sure to remove the camera memory card to ensure that MapInstall will only see the **Map** Memory card, so that the maps can be loaded onto the correct memory card in the memory card slots.

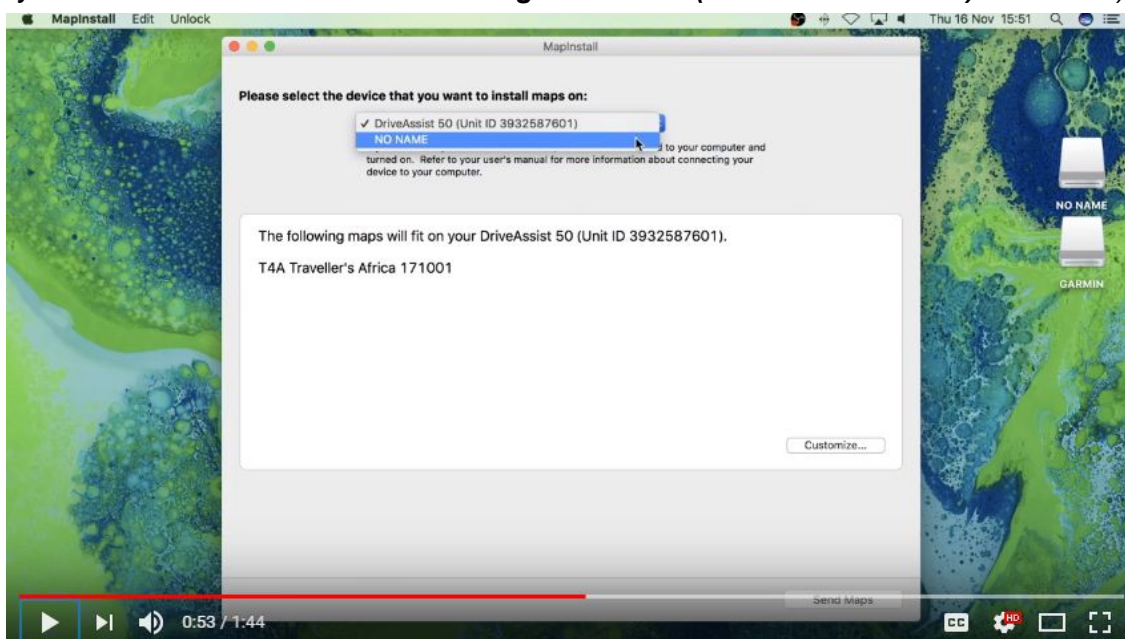

**Find MapInstall on your MAC and open it.** It may appear as an icon on your desktop, or find it by clicking on Go on your toolbar and selecting Applications - Garmin MapInstall.

MapInstall will open.

In order to select the device you wish to install your maps on, open the drop-down list as per below - your **GPS Unit** will be referenced, and **"NO NAME"** which refers to the SD Card in your GPS Unit if there is one inserted. (ie. sometimes the SD card is referenced by **" + SD Card"** after the device name eg. **Nuvi 3790 (unit ID 3820880631)+ SD Card**)

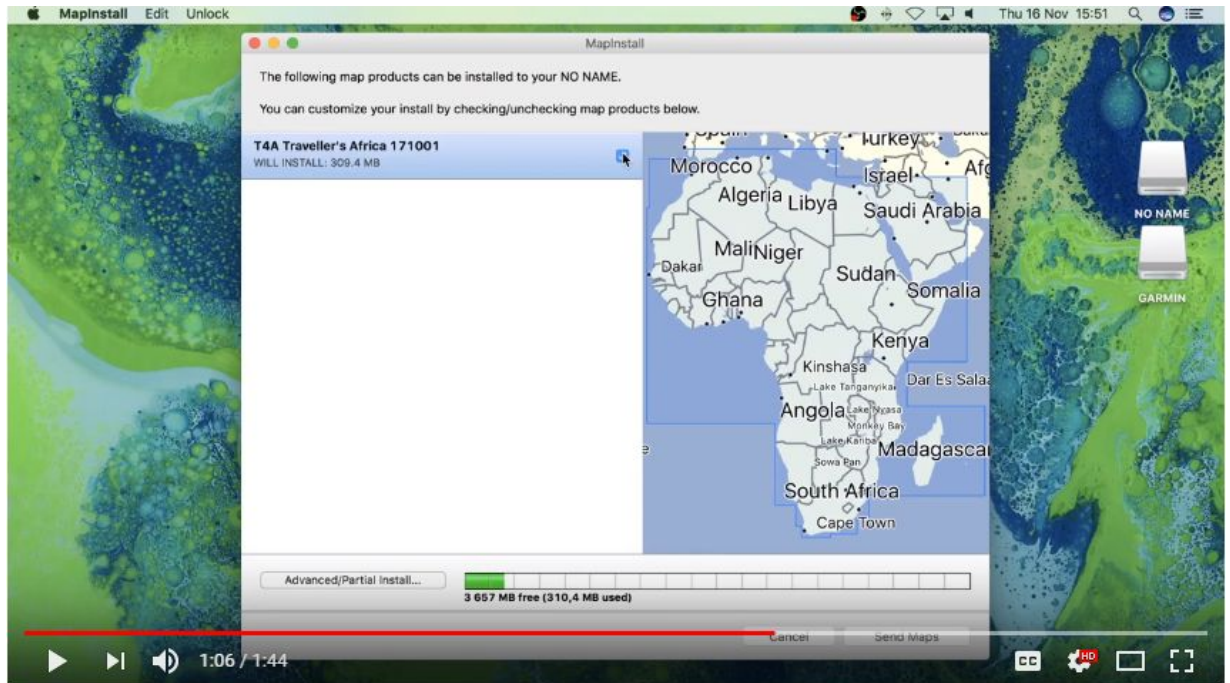

Choose the **device** or **"NO NAME"**, depending on where you want to transfer the maps to (ie. the internal memory of your Garmin unit or the SD Card).

Click on **"Customize"** in the bottom right hand corner.

Customize...

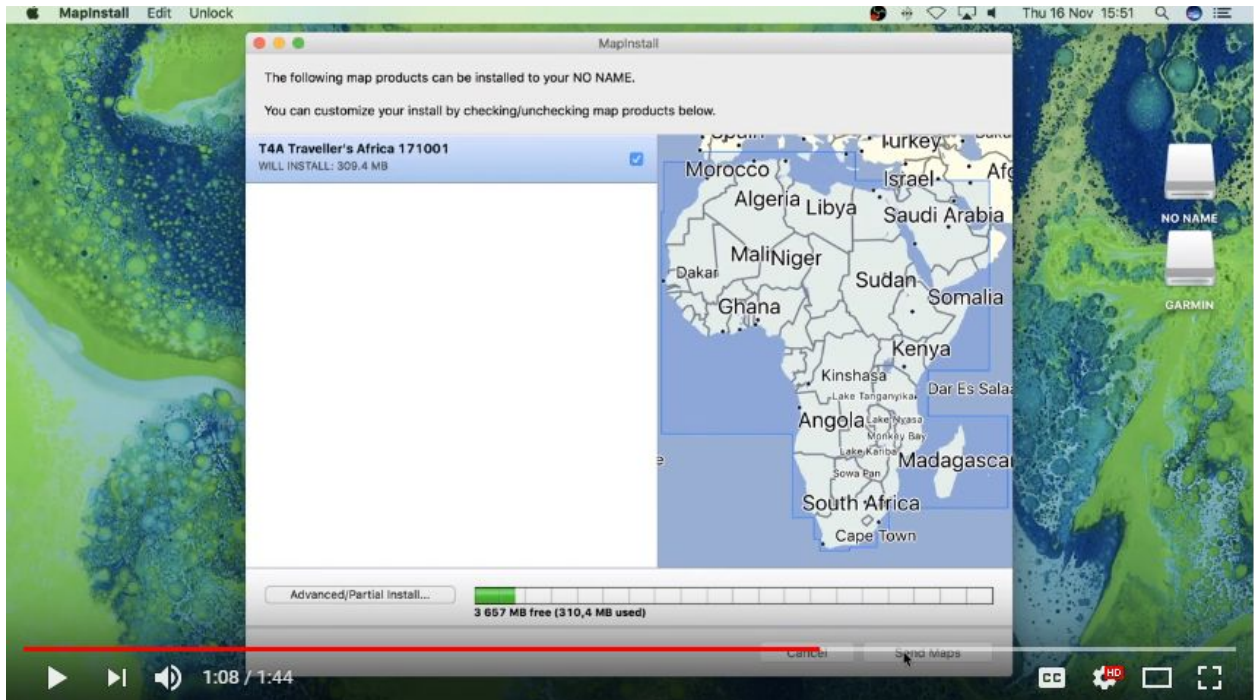

Then **select the T4A GPS Map** that you want to transfer, **by clicking on the blue box to the right of the map name**. Your map will be highlighted on the screen.

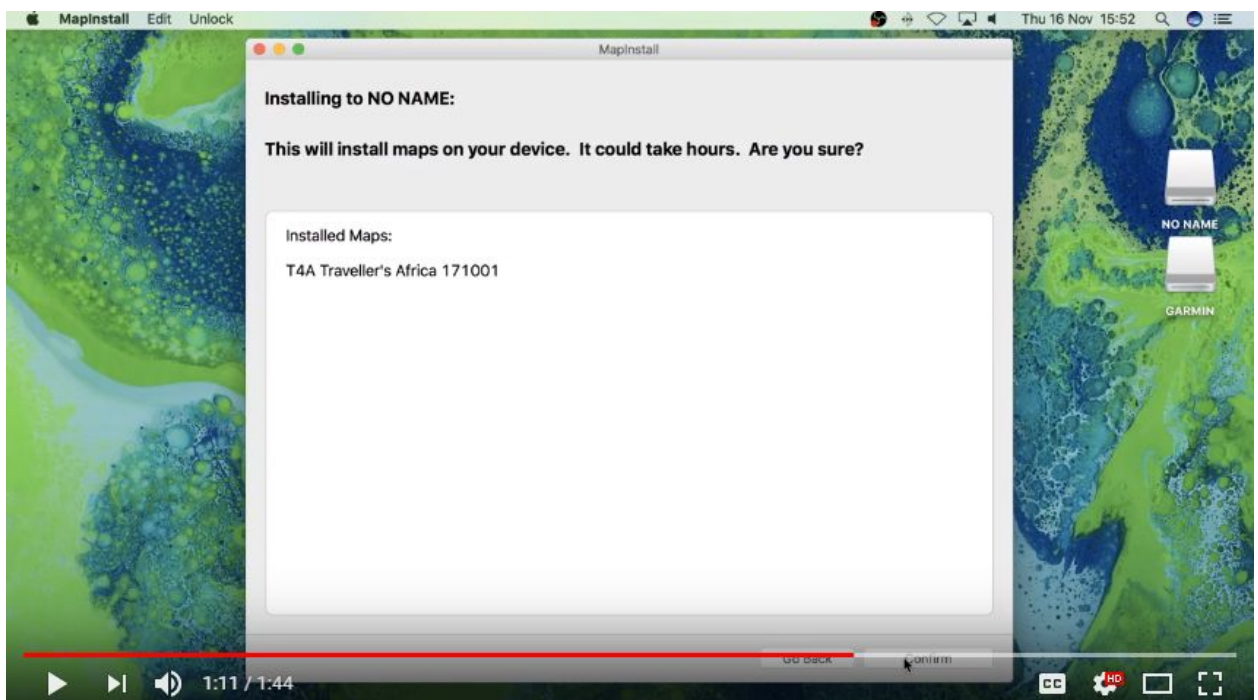

Then click on “**Send Maps**” in the bottom right hand corner.

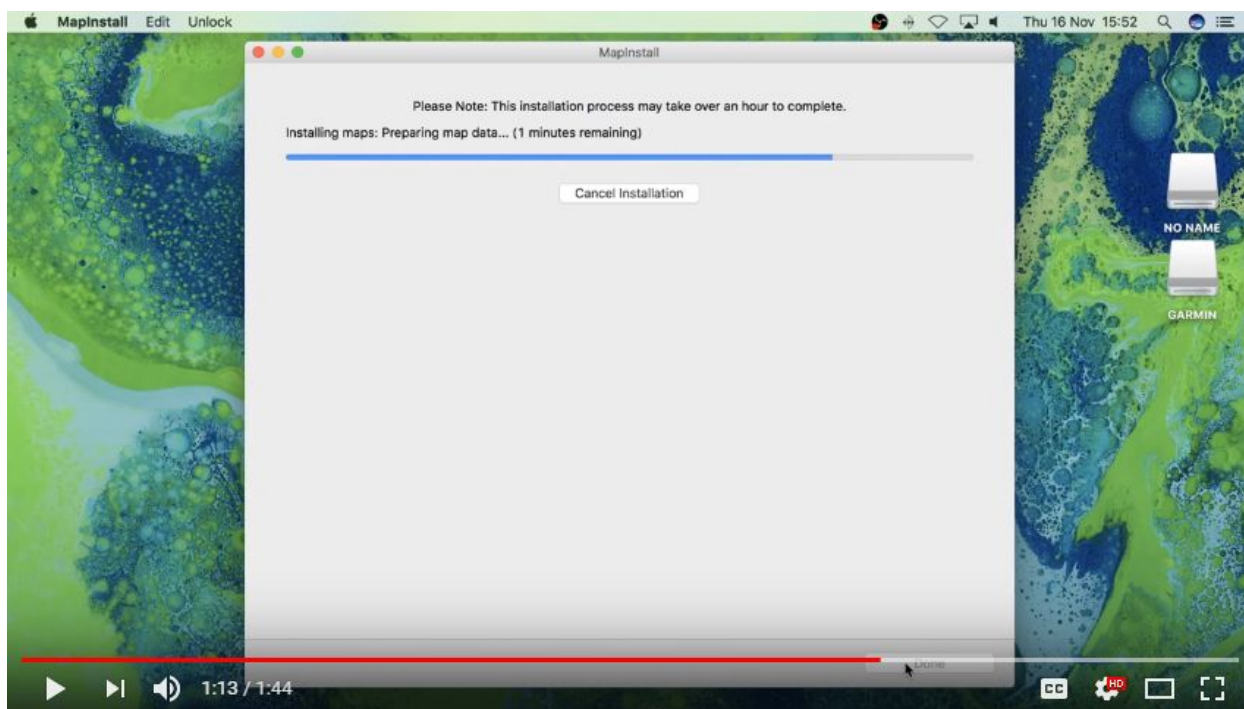

Then click on “**Confirm**” to start the map transfer process.

The Map installation/map transfer process will start, which should only take a few seconds.

When the installation/map transfer process is complete, the following screen will appear. Click on **Done**.

MapInstall will then close.

**You are done - The maps will now be listed under your Map Information on the GPS.** Enable your maps on your GPS by ticking the box next to the map name or by enabling it.

[Go back to Quick Guide section](#)

---

## 2C). Detailed Steps: Using BaseCamp to transfer T4A Maps to your GPS

To transfer maps, waypoints, routes and tracks to your GPS using Garmin BaseCamp for Mac's:

**When transferring map/s to your GPS unit, BaseCamp should be open and your GPS system switched on and plugged in.**

**Each time a mapset is sent to a Garmin GPS, the previously loaded maps could be erased from the GPS, especially your Garmap Street maps. If your Garmap maps are on your SD card, transfer your T4A maps to the internal memory of your device and vice versa.**

**Note: Previous T4A Maps, that you are now replacing, must be UNinstalled from your internal memory or SD Card on your GPS unit and from your MAC, otherwise the new T4A file will not be transferred. ([See steps here](#))**

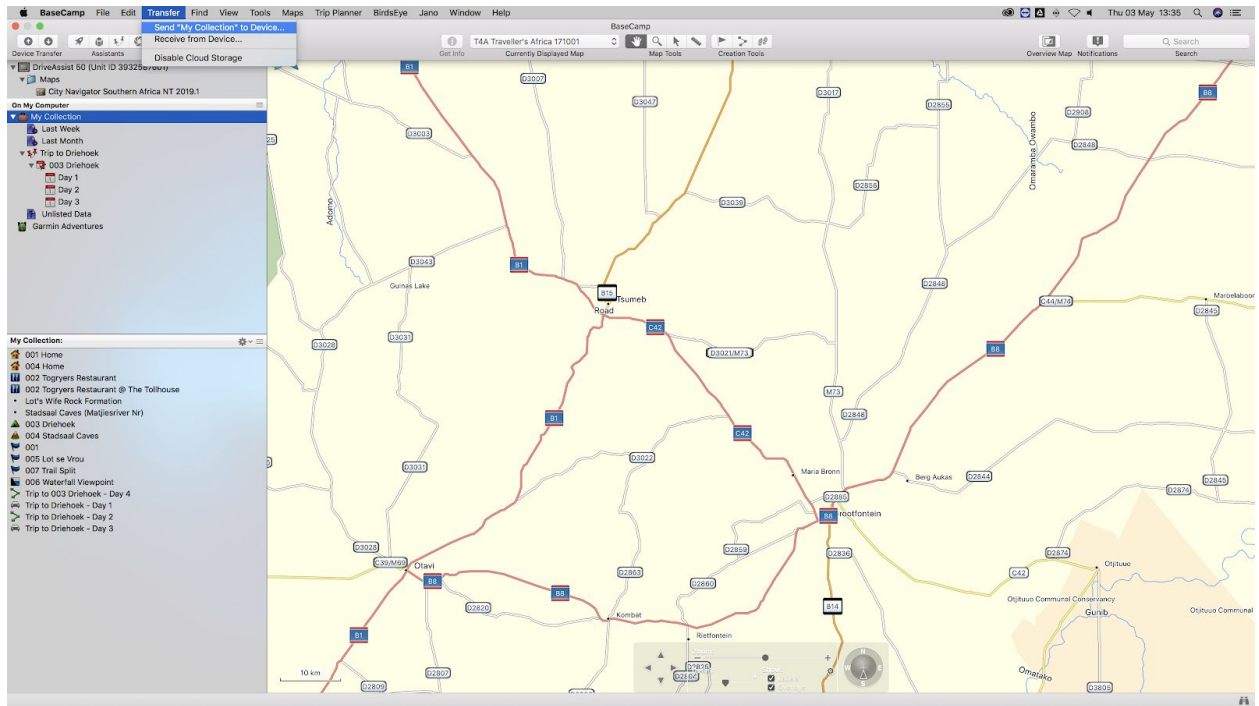

**Note:** If you simply want to transfer only your GPS maps, then **it's better to use the MapInstall function as described in this document**. You can use BaseCamp - but you will have to select at least another item, like waypoints, to transfer as well - you cannot just transfer your GPS Maps.

**Also Note:** If your GPS unit (eg. the Garmin NuviCam LMTHD range) has **2 memory card slots** (ie. one for the camera and one for maps):

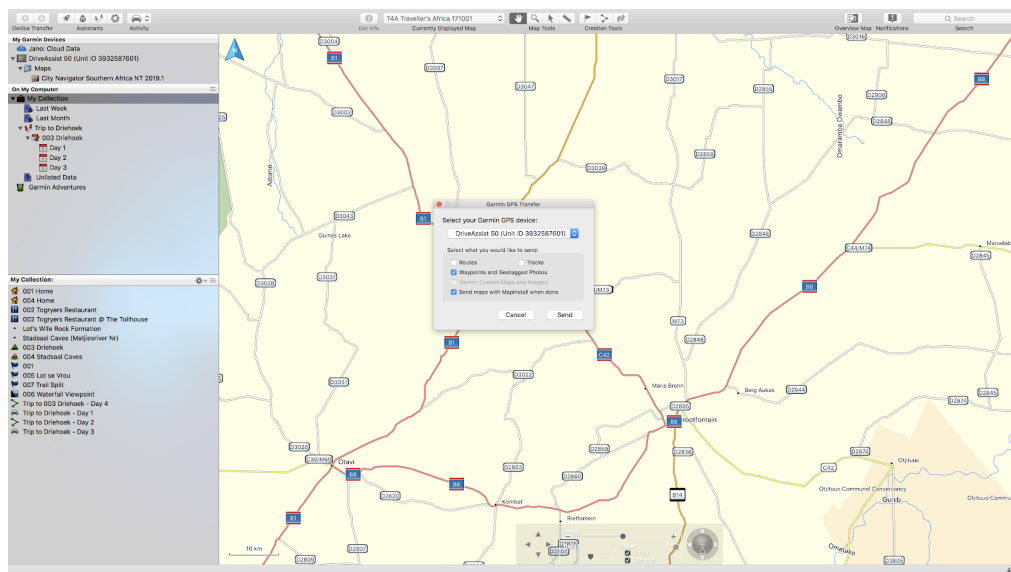

- Be sure to remove the camera memory card to ensure that MapInstall will only see the **Map** Memory card, so that the maps can be loaded onto the correct memory card in the memory card slots.

Go to **TRANSFER** – click on “**SEND “My Collection” to Device...**”

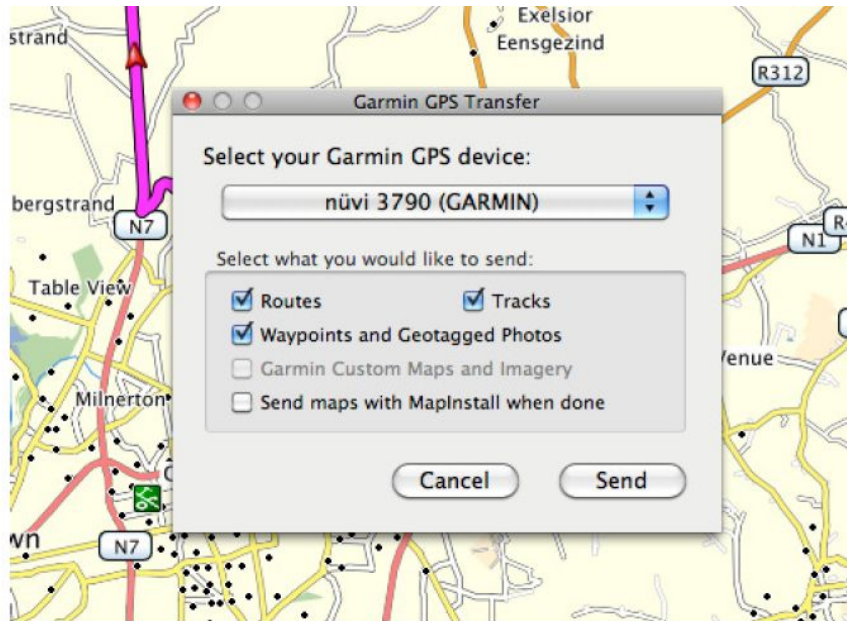

This smaller window will then open on your screen.

Select your **GPS device name** or **No Name** from the drop down menu. If you select you're GPS the data will be transferred to the internal memory of the GPS, if you select the No Name device then the data will be transferred to the SD card in your GPS.

Ensure that **ROUTES, TRACKS, WAYPOINTS AND GEOTAGGED PHOTOS** are ticked in order to send any of those items to your GPS unit too.

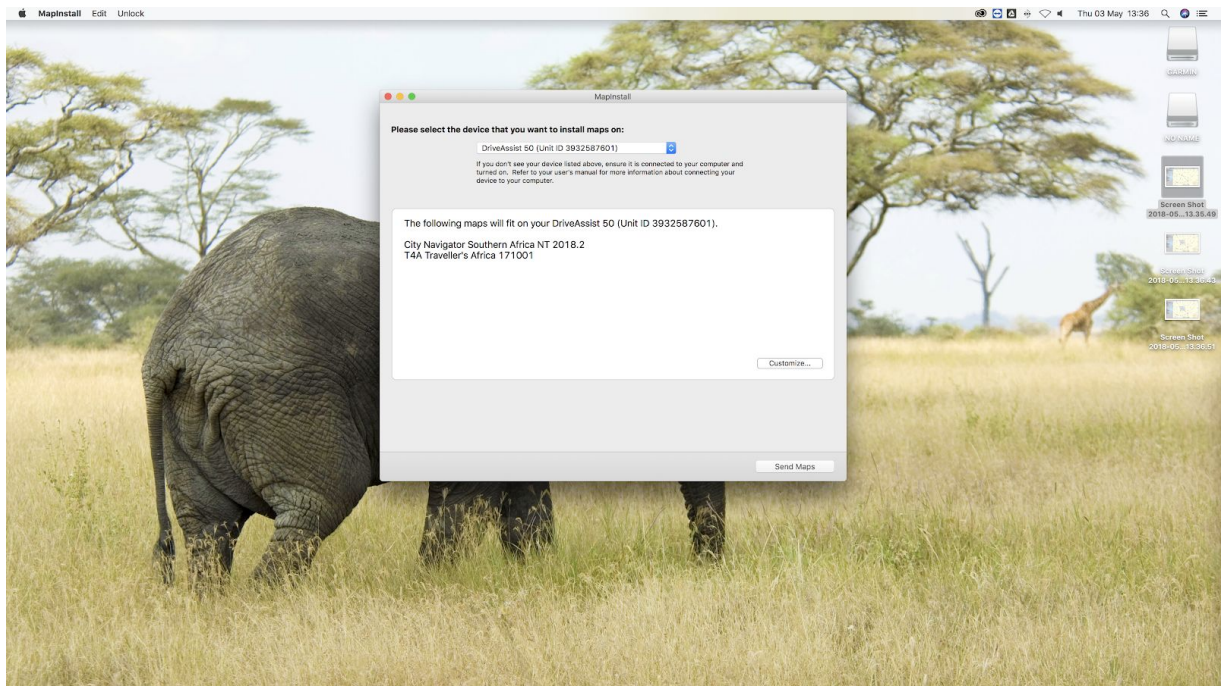

If you want to send T4A GPS Maps, then choose “[Send Maps with MapInstall when done](#)”. Then click on “**Send**”.

*(ie. if you only want to transfer GPS Maps, then use the MapInstall function as described in this document - with Basecamp you cannot send only GPS Maps). See [2B\). Detailed Steps: Using MapInstall to transfer T4A Maps to your GPS.](#)*

If you chose the option to “**Send Maps with MapInstall when done**” - then the MapInstall function within BaseCamp will be initiated.

The MapInstall function will be initiated and will transfer the maps to your GPS unit. Click on **Send Maps** to send the maps.

Click on **Close** after the transfer has been completed.

If you sent **Waypoints** to your GPS - All your waypoints will be listed on your GPS under Favourites.

If your GPS can receive **routes**, and you transferred routes - then the routes you've created will be listed under your Trip planner (depending on your GPS model).

## 3. How to use T4A GPS Maps on your Garmin GPS

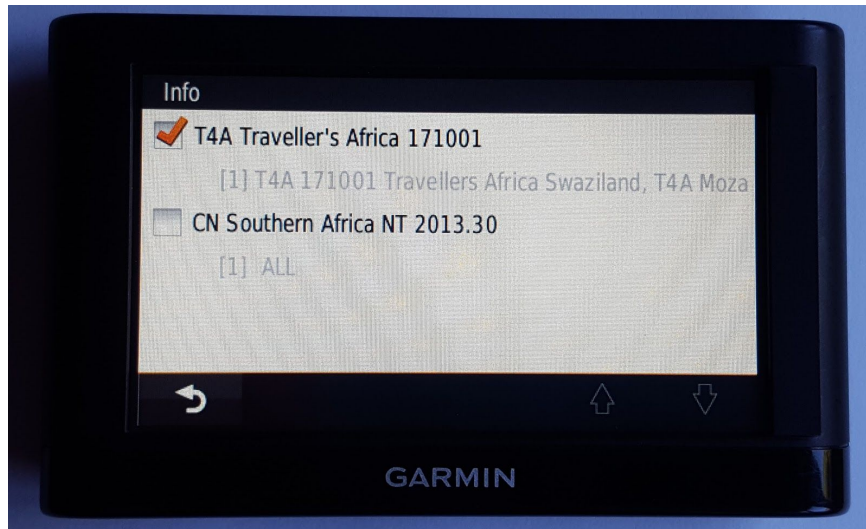

### 3A) Select Only T4A Maps on your GPS

Switch on your GPS then:

1. **You have to enable the T4A GPS Maps on your Garmin Device:** If you have Street Navigation Maps on your unit on the internal memory, **you cannot run T4A GPS Maps and your street maps at the same time.** Please be sure to only select T4A GPS Maps if you want your unit to navigate you from our maps, or vice versa. (ie. Never use any two map products for the same area at the same time as it may result in conflicts. Simply select which one you need and switch the other off).

Depending on what GPS unit you have, the setting will differ from GPS range to GPS range. It is usually under the “Settings” and then “Mapinfo” on your GPS unit. For Nuvi and Zumo units, this can be found by clicking on the ‘spanner’ (Tools). Then select **Settings>Map>MapInfo** to get to the screen where map selection is made.

If you have any previous versions of T4A GPS Maps installed on your GPS’s internal memory you will need to remove those maps.

**See more examples of how to enable this setting on:**

- The newer Garmin Nuvi range
- Garmin Montana range

**Steps on the newer Garmin Nuvi range:** (Please note that the older Garmin Nuvi range will work differently to the newer units)

- Switch on your GPS and select Settings on the home page.

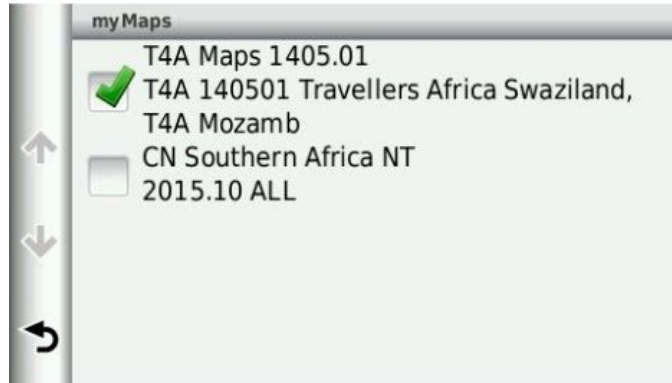

- Then select Map & Vehicle on the next page.

- On the next page, scroll down and select myMaps. All your installed GPS Maps will be listed here.

- Enable the map you wish to use on your GPS by selecting the tick box. Remember that you may only have one map product enabled (ticked) otherwise the GPS won't know which map to use and will give navigation errors.

### Steps on the Garmin Montana range:

- On the homepage of the GPS, click on the arrow on the left-hand side of the screen.

- Select Setup on the next page

- Then select Map.

- Click on Map Information and then Select Map.

- Click on the map you wish to enable on your GPS device.

- Select Enable in order to have the GPS map of your choice enabled. Remember that you may only have one map product enabled otherwise the GPS will give navigation errors.

### 3B) Check these extra settings on your GPS

Here are a few tips to get the most out of your T4A GPS Maps on your GPS:

**Switch on your GPS then check:**

1. **Route preference:** Route Calculation should be set to **Fastest Time / Fastest Route**.
2. **Route preference:** Avoidances, should all be switched off ie. unticked.
3. **Map Detail:** Should be set to “**More**” or “**Most**”
4. Make sure that the Tracks4Africa map is the only map selected under your **My Maps** settings ([see 3A\) Select Only T4A Maps on your GPS](#))

Make sure your settings on Basecamp is the same as the settings on your GPS else you will get different results if transferring routes from Basecamp/Mapsource to your GPS unit.

## 4. DON'T FORGET TO:

### 4A) Read about our Subscriptions Policy for Downloadable GPS Maps

**Note:** this policy came into effect 01 May 2018.

At Tracks4Africa, we aim to officially update our Download GPS Maps for Garmin units at least four times a year - depending on the amount of content changes made to our maps:

- Month 1 (March)
- Month 2 (June)
- Month 3 (September)
- Month 4 (December)

**You can subscribe to:**

- Single Downloadable Maps
- Complete Set of Downloadable Maps for a 1 year or 5 year subscription

**If you have subscribed to a Downloadable Map:**

- Once purchased, you will be entitled to all the map updates we release within the next 12 months or 5 years, depending on the option you subscribed to. This could be up to four updates in a year as we aim to release updates every quarter, but it may also depend on the number of changes we make to our map content. We will however release at least two map updates per year.
- For the Complete Set of Downloadable Maps only for the 1 year subscription: Any future purchase of the complete set/GPS Maps on SD Card will then be at a 50% discount regardless of when you come back to buy.
- There are no further 50% discounts on the single or 5 year map subscriptions.

### **Free Upgrade**

Note that there is no longer a free upgrade for downloadable maps that were purchased, when a new release is released. **Instead you now enter into a yearly or 5 year subscription with us**, and you will be entitled to all the map updates we release within the next 12 months or 5 years. (*ie. you now receive subscription upgrades*).

## **4B) Checkout the T4A Africa Guide on your GPS**

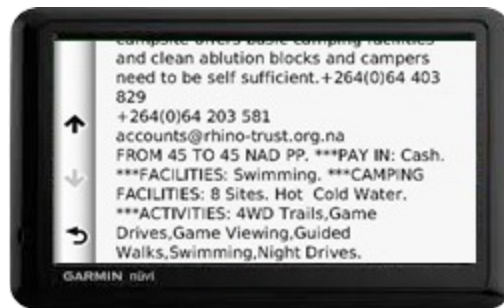

The Africa Guide is a digital file that is included on the T4A GPS Maps SD Card. It contains information, where available, on the POIs (*Points of Interests eg. Lodge, Campsite, Restaurant etc.*) that are on our GPS Maps.

If you have purchased our Complete set of downloadable Maps, you can request the latest Africa Guide from our [salesteam](#).

This Africa Guide can be accessed under "Extras" on your compatible Garmin Device.

This Africa Guide enables you to look up descriptions, contact details, rates, facilities and activities on offer for **lodges** and **campsites** in Africa directly on your GPS. Also included are searchable **picnic sites** and **border control** information, perfect for your next road trip.

You can also look up information on various **attractions** (eg. wine farms) and **activities** (eg. 4WD-trail) that exist as Points of Interests (POI) on our maps.

Note: we no longer publish photos on this guide, as it increases the size of the guide tremendously, and will then take up to much space on a GPS unit.

We've recently introduced a new category "**Communications**": use this to find the nearest point selling airtime, offering internet access, or wireless, or where the nearest public phone is, or a good mobile reception spot.

Also new is our "**Shopping**" category: to help you find your nearest shop of choice, and the nearest place selling gas.

For more information on this guide, how to install it etc. please have a look on our [website here](#).
