

# What is new on the T4A GPS Maps – Traveller's Africa 21.10

T4A GPS Maps 21.10 comes preloaded on a micro SD card with standard adapter, ready for Plug & Navigate. This SD card can be used on most map capable Garmin units and has been tested with latest Drive models as well. This product is not compatible to iGO in car navigation systems, Android or iOS devices. For these platforms we have separate products.

The SD card also contains installation files for PC and Mac users who want to install the maps on their computers for trip planning or for transferring maps to older Garmin units such as the 276c, 76csx, previous generation eTrex, etc.

The map growth is organic in nature. We processed **356 data submissions for version 21.10**. These data submissions not only contribute more roads and POI's to the map, it also improves the quality of existing data by means of corrections. The overall road coverage has increased by **0.20%** from 21.05.

## Map Coverage

- **1 377 516km** of roads, detailed tourist coverage and fully navigable (0.20% increase from 21.05)
- **179 267** points of interest (1% increase from 21.05)
- Most complete and detailed **protected areas (national parks, game reserves, private nature reserves etc.)** in Africa – **2 582 parks** in total.
- **17 401 accommodation** listings (1% up from 21.05)
- **4 456 campsites**, [the most complete camping database in Africa](#) (1% up from 21.05)
- **7 729 places to eat or drink** (up 1% from 21.05)

- **14 626 fuel stops** (0.31% up from 21.05)

## **Change log from selected data submissions**

We completed our new road atlas project for **Southern and Eastern Africa**. This project brought a lot of map clean-up and standardization to happen. We identified areas where we needed to clean up or add data. Our POI content team also worked through this entire region to bring new POI into the database, mapping services per town.
